2. Package 158*96*55 / 278 DESİ / 39 KG
3. Package 120*80*55 / 176 DESİ / 22 KG

Installation and User Guide

Excessive weight on the product during use, uncontrolled displacement, direct and continuous exposure to sunlight are factors that will reduce the life of the product.

Depending on the area you live in, dusting your product with an electric vacuum cleaner at certain intervals and removing the particles on it will support both hygiene and easy cleaning in case of staining.

Professional cleaning with machines is recommended for all products with fabric upholstery. If you need to do the cleaning yourself, you can add white soap to warm water and use a clean washcloth or a piece of white cotton fabric to damply rub the surface in the same direction. For rinsing, you can rinse the surface with water again with the help of a piece of cloth and a washcloth. Heavy detergents and bleach should not be used on upholstery fabrics, it may damage the texture and color of the fabric.

Installation:

This product can be assembled by one person with experience or two people in total with an assistant. If you need to do this for the first time, you will need a place to put it upside down and a charged screwdriver. Installation materials for the product are sent with the product.
