Care and Maintenance

How to care for your outdoor furniture

- Wash your outdoor furniture annually, scrub with soapy water followed by a thorough rinse.
- Periodically check all fixings to ensure none have come loose and re-tighten where necessary.
- Do not drag any objects across the surface, as this can cause permanent damage.
- We recommend that all garden furniture is covered when not in use and stored for winter. Ensure your furniture is clean and completely dry before being covered. The cover must be breathable to prevent mildew and/or mould developing. If storing away, ensure the space is not heated but dry with good airflow.

How to care for your outdoor cushions

- To keep outdoor cushions in the best possible condition, we recommend keeping them covered when not in use and/or in wet conditions (using a breathable cover) and store them inside over winter. Do not store in polythene bags or they may develop mould.
- To clean the cushions, remove the covers and gently spot clean using upholstery shampoo or warm soapy water (with a mild detergent) to blot out any stains as soon as they occur.

Safety instructions

- Please take care when handling or moving the furniture, careless handling may cause damage or injury.
- Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.
- It is recommended that before moving heavy objects to a new location they are completely dis-assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.
